Career Objective

Enthusiastic and creative UI/UX Designer with a passion for creating user-centered designs and seamless digital experiences. Recently completed hands-on training in design tools and UX principles. Eager to contribute design thinking and visual storytelling to enhance product usability and customer satisfaction at WORKSPACE.

Key Skills

- UI/UX Design Principles
- Wireframing & Prototyping (Figma, Adobe XD, InVision)
- Adobe Illustrator & Photoshop
- Storyboards, User Flows, and Sitemaps
- HTML & CSS (basic)
- Responsive Design
- Team Collaboration & Communication
- Time Management

Academic Projects

- E-Commerce Website Redesign (Capstone Project)

- Designed end-to-end user flow for an e-commerce platform, focusing on intuitive navigation and checkout process.
- Created wireframes and interactive prototypes using Figma.
- Conducted user testing and made iterative design improvements based on feedback.

- Mobile App for Event Planning

- Developed UI mockups for an event management app using Adobe XD.
- Presented rough drafts and incorporated feedback from peers and mentors.
- Designed icon sets and visual components following style guidelines.
